

What is the Green Shield Award?

The Green Shield Award is a yearly prize given by the Tweed Bridge Club to encourage members to improve their bridge-playing skills. As players get better, it not only benefits them personally, but also helps boost the club's reputation and makes it a more attractive place for others to come and play.

Each year, during the club's Annual General Meeting, the winner receives a \$25 prize, and their name is added to an honour board on display at the club, alongside past winners.

How it Works:

To be eligible, a player must have been a club member for at least two years before the award is given.

A special ranking program is used to find players who have shown the biggest improvement in their results over the past 12 months.

From this short-list, the Tournament Committee chooses the player who they believe has shown the most growth and is most deserving of the award.
